

Time Extractor User Guide

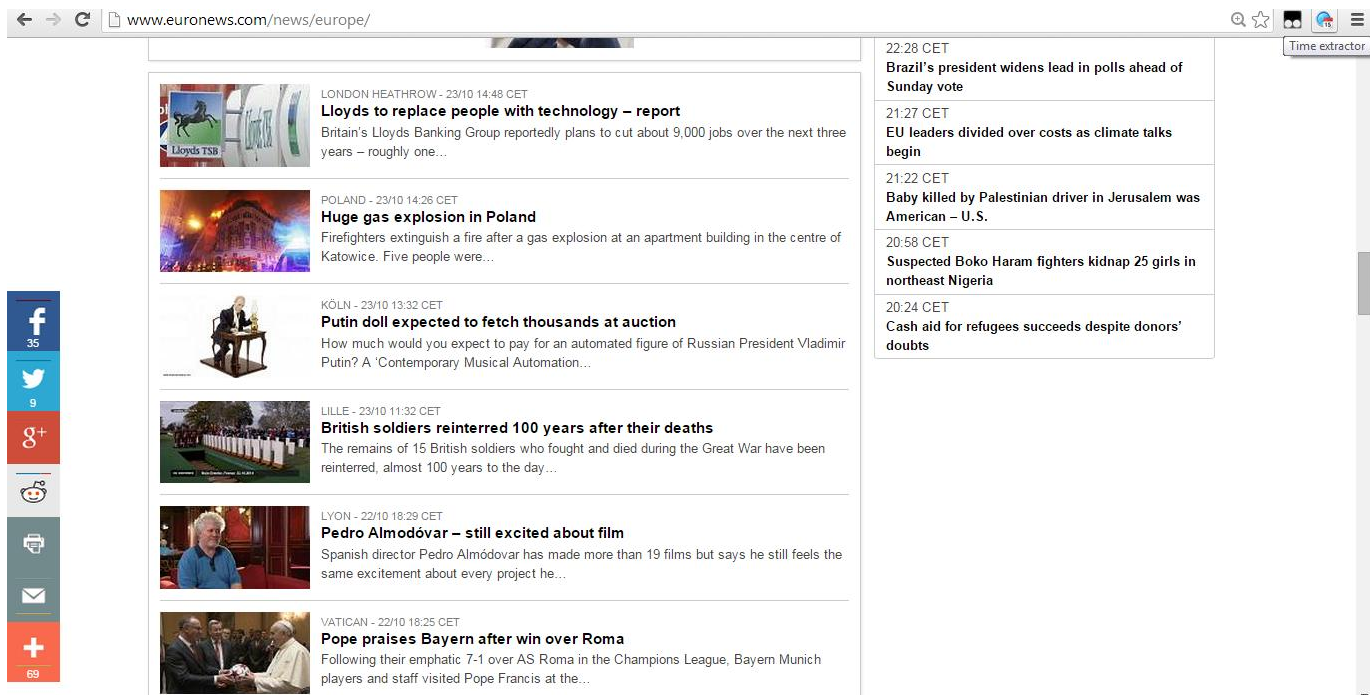

ver. 1.0.1

1. Install Time Extractor from Chrome Shop.

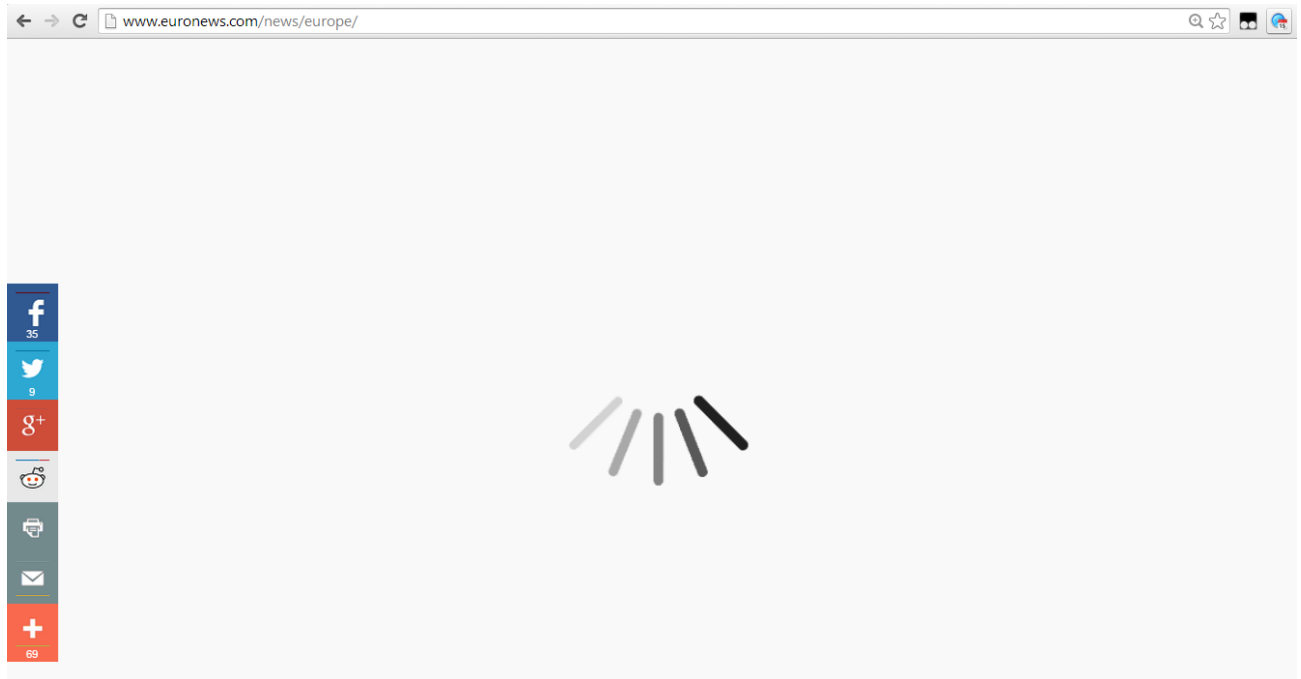

<https://chrome.google.com/webstore/detail/time-extractor/hgaoahpeednaofaehlbengbfeidcfiei>

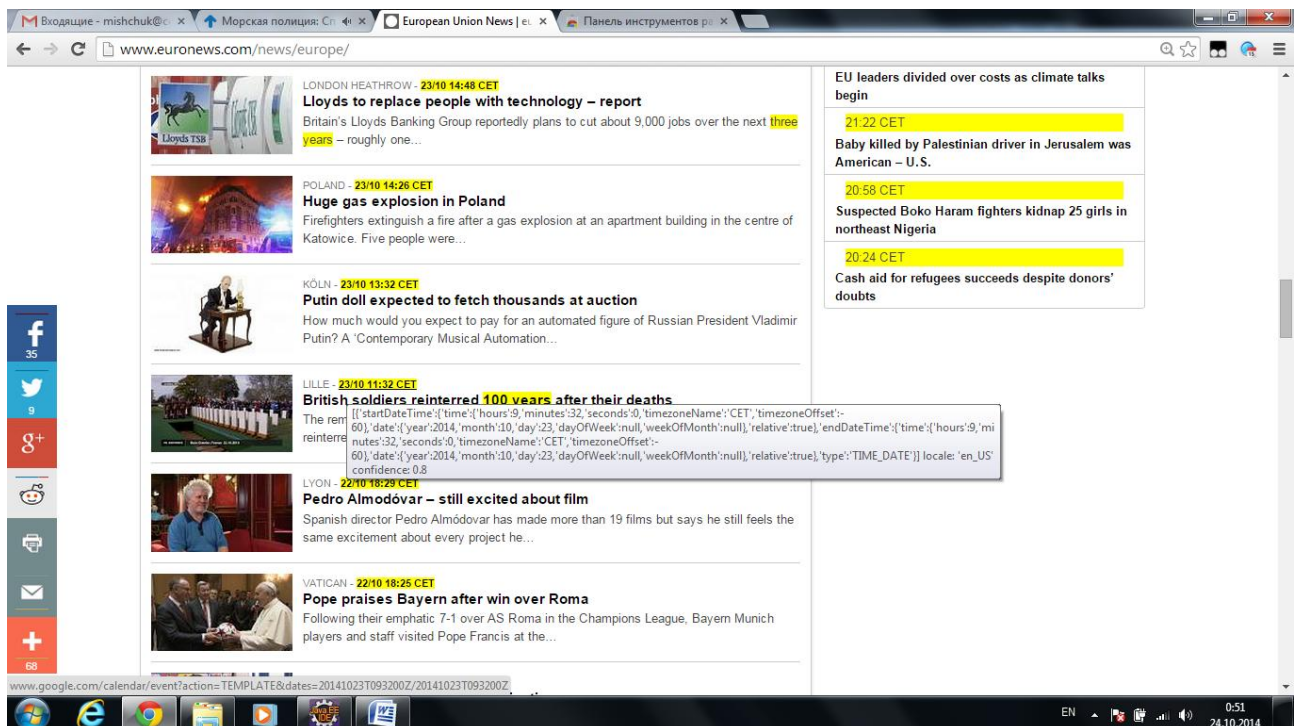

2. Select the page on which you want to use extension and click on time extractor icon.

3. Wait from 0.3 to several seconds (depends on amount of content on the page), after loading the bar disappears.

3. Found text will be highlighted. If you move mouse on the highlighted element, parsed data will appear as tooltip. Tooltip contains information about confidence level, locale, and contains parsed expression (for more details refer to API information page:)

4. If you click on highlighted text it will redirect you with following time expression to google calendar.

https://www.google.com/calendar/render?action=TEMPLATE&dates=20141023T093200Z/20141023T093200Z&sf=true&output=xml#f

The art, the views, the architecture, the gardens... what's not to love? It's a great way to spend a day.

6. On option page you can select connection type. When you select https, alert popup will appear, informing that you need to add Server API address to trusted and instruction.

7. Also you can select rules that you want to be ignored. Firstly, you load rules by clicking on 'Load rules'. Select rules you want to be ignored and click on 'Save' button.
